7th to 20th August 2015

Surrounded by the sun and the sea, all day long, I became kind of dizzy but, at the same time, happy and free like a bird. Having all these great people around me who tell and teach you about anything and everything. One of my first sailing experience couldn't be more satisfying and full of life. The whole team and crew were really comprehensive of my situation. Living in Quebec, we don't speak much english so going for 2 weeks in this all-english environment was a challenge. Everyone was really nice and helpful with me. A huge thanks to the whole OYTSouth team who have made this wonderful trip possible.
